

SAFETY AND REGULATORY STATEMENTS

For more information on this product, visit www.VertivCo.com to download the user manual.

Safety Precautions

This safety sheet contains important safety instructions. Read all safety, installation and operating instructions before installation. Follow all instructions.

- For use in dry, oil-free indoor environments only.
- Do not use to link between two buildings.
- No serviceable parts within the power adaptor. Do not dismantle or attempt to service the module yourself.
- Plug the power adaptor into an outlet close to the equipment that it is powering and that is easily accessible.
- Replace the power adaptor with a manufacturer approved type only.
- Do not use the power adaptor if it becomes damaged, cracked or broken or if you suspect that it is not operating properly.
- If you use a power extension cord with the units, make sure the total ampere rating of the devices plugged into the extension cord does not exceed the cord's ampere rating. Also, make sure that the total ampere rating of the devices plugged into the wall outlet does not exceed the wall outlet's ampere rating.
- Both the unit and its power supply generate heat when in operation and will become warm to the touch. Do not enclose them or place them in locations where air cannot circulate to cool the equipment. Do not operate the equipment in ambient temperatures exceeding 104°F (40°C). Do not place the products in contact with equipment whose surface temperature exceeds 104°F (40°C).
- Do not connect CATx link interfaces (RJ-45 style connectors) to any other equipment, particularly network or telecommunications equipment.
- Extenders do not provide ground isolation and should not be used for any applications that require ground isolation or galvanic isolation.

WARNING: *The power adaptor contains live parts.*

Radio Frequency Energy

Shielded cables must be used with this equipment to maintain compliance with radio frequency energy emission regulations and ensure a suitably high level of immunity to electromagnetic disturbances.

European EMC Directive 2014/30/EU

WARNING: *This equipment is compliant with Class A of EN55032. In a residential environment this equipment may cause radio interference.*

FCC Compliance

This equipment generates, uses and can radiate radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio communication. It has been tested and found to comply with the limits for a class A computing device in accordance with the specifications in Subpart B of part 15 of FCC rules, which are designed to provide reasonable protection against such interference when the equipment is operated in a commercial environment. Operation of this equipment in a residential area may cause interference, in which case the user at his own expense will be required to take whatever measures may be necessary to correct the interference. Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

Canadian Department of Communications RFI Statement

This equipment does not exceed the class A limits for radio noise emissions from digital apparatus set out in the radio interference regulations of the Canadian Department of Communications.

Le présent appareil numérique n'émet pas de bruits radioélectriques dépassant les limites applicables aux appareils numériques de la classe A prescrites dans le règlement sur le brouillage radioélectriques publié par le ministère des Communications du Canada.
